BEST EVER TRAIL MIX

GF, VGN, RSF 5 mins 2 12

Ingredients

- Roasted almonds
- Raw macadamias
- Raw cashews
- Raw brazil nuts
- Raw pecans
- Organic dried pear
- Organic turkish apricots
- Goji berries
- Cacao nibs
- * I like to buy organic dried fruit with no added preservatives. The dried apricots don't look as bright, but believe me, they taste a million times better. I usually buy the 'Macro' brand organic turkish apricots.

Method

- *I.* Mix together equal quantities of fruit and nuts, then add the gojis and cacao nibs. I would probably add ½ a cup of each fruit and nut and a couple of tbs of gojis and cacao nibs.
- 2. Store in an airtight jar or pack into a brown paper bag for the perfect snack on the go!
